

Stormwater management issues are everywhere. To preserve, protect and improve the Nation's water resources from polluted storm water runoff, EPA's Clean Water Act NPDES Phase II Rules regulate commercial, residential, and highway construction land disturbance activities, industrial activities, and municipal separate storm sewer systems (MS4s). Implementation of BMPs (Best Management Practices) and adherence to technical design standards and specifications are mandated.

A variety of practices can be used to meet New York State's technical requirements, which are detailed in the state's Standards and Specifications for Erosion and Sediment Control and Stormwater Management Design Manuals. This workshop will provide training on how geosynthetic products and technologies can be utilized to control sediment and erosion, protect water quality, and meet New York's NPDES Phase II construction requirements.

Learning Objectives:

At the completion of this workshop, participants will have a basic understanding of the selection, design, benefits, permitting, limitations and installation of a variety of geosynthetic solutions for sediment control, erosion prevention, thermal pollution reduction, runoff management and site stabilization. Both generic and product specific examples of geosynthetic solutions will be presented.

Who Should Attend:

Engineers, planners, contractors, inspectors and Conservation District, Municipal, County, State, MS4, and watershed association staff who are involved in the design, specification, construction, maintenance and regulatory issues related to storm water management and watershed protection.

Warren Cohn CPESC, CPSWQ
ACF Environmental
2939 Felton Road
Norristown, PA 19401

The Dutchess and Putnam County Soil & Water Conservation Districts and ACF Environmental

GEOSYNTHETICS FOR SEDIMENT CONTROL, EROSION PREVENTION AND STORMWATER MANAGEMENT

One-Day Workshop

Thursday, February 5th, 2009

8:30 AM to 4:00 PM

Dutchess Manor

263 Route 9D, Beacon, NY 12508

6.0 Professional Development Hours
(PDHs) for New York State Landscape
Architects and Professional Engineers!
6.0 PDU (Professional Development Units)
from CPESC, Inc.

Workshop Instructor

**Warren Cohn, CPESC, CPSWQ
BMP Product Specialist**

Warren has been assisting engineers, contractors and regulators with geosynthetic solutions to storm water management for over 20 years. Warren is a Certified Professional in Erosion and Sediment Control (CPESC), a Certified Professional in Storm Water Quality (CPSWQ), an authorized instructor of the CPESC Review Course, and was a member the PA BMP Manual Oversight Committee.

For directions to this Workshop and information on other Workshops and Exams, please visit the calendar tab at www.acf-bmps.com

Special thanks to our co-sponsors for subsidizing the cost of this workshop, including lunch & snacks.

REGISTRATION INFORMATION

- ◆ Space is limited so please register at your earliest convenience.
- ◆ Registration and Continental Breakfast begins at 7:45 a.m.
- ◆ A registration confirmation will be sent via e-mail to each participant.

This workshop is approved for 6.0 PDHs of mandatory continuing education requirements in New York. For further information, please contact Brenda Rivard at 203-775-0661, or brivard@acfenvironmental.com.

Geosynthetics for Sediment Control, Erosion Prevention and Storm Water Management

Sediment Control and Erosion Prevention

Perimeter Controls, Inlet Protection, Filter Bags and Tubes, Polyacrylamide (PAM), Erosion Control Blankets.

Break

Sediment Control and Erosion Prevention (con't)

Hydraulic applications, Turf Reinforcement Mats (TRMs), Scour Prevention, Transition Mats, Articulating Concrete Blocks (ACBs)

Lunch

Run-Off Management

Underground Storage, Pre-treatment, Liners, Pervious Parking and Access Treatments.

Break

Site Stabilization

Cellular Confinement (Load Support, Slope Protection, Earth Retention), MSE Green Walls, Earth Anchors, Geocomposite Drainage Systems, Geofoam and Geotextiles and Geogrids.

Please Register Me:

Geosynthetic Workshop 2-5-2009	\$70.00
Geosynthetic Workshop for Conservation District, NYSDOT, NY Thruway Authority, NYSDEC, EPA, or Municipal personnel	\$40.00
Additional Late Registration Charge (later than one week prior to workshop date)	\$10.00
___ Yes, I am requesting PDH Credit	\$25.00
Total	
Includes lunch, snacks and workshop materials	

Putnam - Dutchess SWCD Geo BMPs

Mail the registration form with check, voucher or purchase order made payable to:

“ACF Geosynthetic Workshop”

Brenda Rivard, 48 Old Grays Bridge Rd., Brookfield, CT 06804. Phone 203-775-0661.

or **Fax the registration form** with credit card information to 203-775-0272
